

**Glasgow International College Articulation Routes and Exit Requirements**  
**Pre-Masters for Science and Engineering**

	Exit Requirements	IELTS Equivalences	Other Requirements
<b>Biomedical and Life Sciences Pathway</b>			
MRes Bioinformatics	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Anatomy)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Cell Engineering)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Exercise Science)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Infection and Immunity)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Medical Biochemistry)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Molecular Genetics)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Neuroscience)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Proteomics)	60%	6.5	First degree in a relevant subject
MRes Biomedical Sciences (Post Genomic Technologies)	60%	6.5	First degree in a relevant subject
MRes Ecology and Environmental Biology	60%	6.5	First degree in a relevant subject
MRes Evolutionary Biology and Systematics	60%	6.5	First degree in a relevant subject
MRes Marine and Freshwater Ecology and Environmental Management	60%	6.5	First degree in a relevant subject
MRes Molecular Parasitology	60%	6.5	First degree in a relevant subject
MRes Plant Science	60%	6.5	First degree in a relevant subject
MRes Systems Biology	60%	6.5	First degree in a relevant subject
<b>Engineering Pathway</b>			
MSc Aerospace Systems	60%	6.5	First degree in a relevant subject
MSc Desalination Technology	60%	6.5	First degree in a relevant subject
MSc Electronics and Electrical Engineering	60%	6.5	First degree in a relevant subject
MSc Electronic Design	60%	6.5	First degree in a relevant subject
MSc Engineering and Management (Aerospace Engineering and Management)	60%	6.5	First degree in a relevant subject
MSc Engineering and Management (Civil Engineering and Management)	60%	6.5	First degree in a relevant subject
MSc Engineering and Management (Chemical Engineering and Management)	60%	6.5	First degree in a relevant subject
MSc Engineering and Management (Electrical Engineering and Management)	60%	6.5	First degree in a relevant subject
MSc Engineering and Management (Mechanical Engineering and Management)	60%	6.5	First degree in a relevant subject
MSc Geotechnical Engineering	60%	6.5	First degree in a relevant subject
MSc Mechanical Engineering	60%	6.5	First degree in a relevant subject
MSc Space Mission Analysis and Design	60%	6.5	First degree in a relevant subject
MSc Structural Engineering and Mechanics	60%	6.5	First degree in a relevant subject
MSc Telecommunications Electronics	60%	6.5	First degree in a relevant subject
MSc Water Resources Engineering Management	60%	6.5	First degree in a relevant subject
*no less than 6.0 in any skill element			
MSc Information Technology	50%	6.5	First degree in a discipline related to Computing Science, eg, maths, physics, engineering

**Glasgow International College Articulation Routes and Exit Requirements**  
**Pre-Masters for Business, Law and Social Science**

	Exit Requirement	IELTS equivalence*	Other requirements
<b><i>Business pathway</i></b>			
MBA Business Administration	60%	6.5	First degree in a relevant subject 3 years relevant managerial work experience
MSc Banking and Financial Services	60%	6.5	First degree in a relevant subject with a minimum of 2 courses in economics and 2 courses in finance
MSc in Central Banking	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc International Trade and Finance	60%	6.5	First degree in a relevant subject with a minimum of six courses in economics
MSc Economic and Financial Sector Policies	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc Economics, Banking and Finance	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc Finance and Economic Development	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc Financial Forecasting and Investment	60%	6.5	First degree in a relevant subject with a minimum of four courses in accounting/finance with at least one course at post-elementary level
MSc Financial Economics	60%	6.5	First degree in a relevant subject with a minimum of six courses in economics
MAcc International Accounting and Financial Management	60%	6.5	First degree in a relevant subject with a minimum of four courses in accounting/auditing
MSc International Banking and Finance	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc International Development	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc International Finance and Economic Policy	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MFin International Finance	60%	6.5	First degree in a relevant subject with a minimum of four courses in Accounting/Finance
MSc International Financial Economics	60%	6.5	First degree in a relevant subject with a minimum of six courses in economics
MSc International Financial Analysis	60%	6.5	First degree in a relevant subject with significant math content
MSc International Corporate Finance and Banking	60%	6.5	First degree in a relevant subject with significant math content
MSc Investment Banking and Finance	60%	6.5	First degree in a relevant subject with a minimum of 2 courses in economics and 2 courses in finance
Msc Quantitative Finance	60%	6.5	First degree in a relevant subject with a minimum of 2 courses in economics and 2 courses in finance
MSc Management	60%	6.5	First degree
MSc Management with International Finance	60%	6.5	First degree in a relevant subject with a minimum of 3 courses in Finance
MSc Management with Real Estate	60%	6.5	First degree in a relevant subject
MSc Strategic Marketing	60%	6.5	First degree in relevant subject with a minimum of 3 courses in Marketing
MSc International Management and Entrprenuership	60%	6.5	First degree in relevant subject with a minimum of 3 courses in International Business
MSc Human Resources Management	60%	6.5	First degree in relevant subject with a minimum of 3 courses in Human Ressource Management
<b><i>Law pathway</i></b>			
LLM Law	60%	7	First degree with a significant legal content
LLM Commercial Law	60%	7	First degree with a significant legal content
LLM International Law	60%	7	First degree with a significant legal content
LLM International Competition Law and Policy	60%	7	First degree with a significant legal content
<b><i>Social Sciences pathway</i></b>			
Msc Applied Social Research	60%	6.5	First degree in a relevant subject
MSc China in the International Arena	60%	6.5	First degree in a relevant subject
MSc City and Regional Planning	60%	6.5	First degree in a relevant subject
MSc City Planning and Real Estate Development	60%	6.5	First degree in a relevant subject
MSc City Planning and Regeneration	60%	6.5	First degree in a relevant subject
MSc Contemporary Economic History	60%	6.5	First degree in a relevant subject
MSc Development Studies	60%	6.5	First degree in a relevant subject
MSc Economic Development	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc Environment and Sustainable Development	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc Environment, Development and Globalisation	60%	6.5	First degree in relevant subject with some courses in sociology/economics
MSc Europe and International Development	60%	6.5	First degree in relevant subject with a minimum of 2 courses in Politics
MSc Gender, Rights and Development	60%	6.5	First degree in a relevant subject

MSc Global Movements, Social Justice and Sustainability	60%	6.5	First degree in Sociology or Anthropology
MSc Human Rights and International Politics	60%	6.5	First degree in a relevant subject
MSc International Politics	60%	6.5	First degree in a relevant subject
MSc Political Communication	60%	6.5	First degree in a relevant subject
MSc in Political and Soci-Economic Transformations in Russia, Central and Eastern Europe	60%	6.5	Subject to University approval
MSc Project Planning and Development Policy Analysis	60%	6.5	First degree in a relevant subject with a minimum of three courses in economics
MSc Public Policy	60%	6.5	First degree in a relevant subject
MSc Real Estate	60%	6.5	First degree in a relevant subject
MSc Real Estate and Regeneration	60%	6.5	First degree in a relevant subject
MSc Russian Central and East European Studies	60%	6.5	First degree in a relevant subject
MSc Social History	60%	6.5	First degree in a relevant subject
MSc Social Science Research	60%	6.5	First degree in a relevant subject
MSc Sociological Studies	60%	6.5	First degree in a relevant subject
MSc Urban Policy and Practice	60%	6.5	First degree in a relevant subject
MSc Urban Regeneration	60%	6.5	First degree in a relevant subject
MSc Adult and Continuing Education	60%	6.5	First degree in a relevant subject
