

## Foundation Certificate in Business, Law & Social Science The University of Sheffield entry requirements for 2010 entry

The table below shows the progression options available to students completing a Foundation Certificate in Business, Law & Social Science at Sheffield International College. **Please note** some departments require you to have completed certain modules (see Module Requirements column in the table below). If you have not studied and completed the required modules at the required level, you will not be able to choose that particular course.

If you are considering changing your progression choice to one of these courses, please make sure you have read the course information online at [www.sheffield.ac.uk](http://www.sheffield.ac.uk) carefully before making your choice. You will need to discuss your wish to change progression route with your Learning Support Tutor, and complete a Change of Progression Form which will be sent to your Programme Leader.

Department / Course	S.I.C Course Average Required	Module Requirements (if applicable)	English Requirement
<b>Management School</b>			
BA Accounting & Financial Management	65%	Min. 50% in FC008 Maths & Stats for Soc. Science	65% (min 60 in all elements)
